Equitrac software

DebitLog

DebitLog is a secure card-operated print vending and tracking solution that displays the value of each purchase as transactions are made. Ideal for retail or education markets, the DebitLog system combines a tracking terminal, card encoder, and card service center

Equitrac delivers efficient device operation and lower total of ownership.

to dispense and read plastic Value Cards. The system can easily be set up to use a PIN system to allow users to access devices; by using their PIN numbers, users can purchase Value Cards,

add value to cards, or obtain account balances. DebitLog offers convenience both for consumers and device operators, and allows operators to accurately track and charge for usage.

PrintLog Professional

This is a workstation-based print-tracking application designed for simple installation in small organizations where server-based products may be too complex. It enables users to allocate printing to user, client, project, or department codes. Designed for the Windows 95, 98, Me, NT, and 2000 environments, PrintLog Professional is a simple yet powerful tool for tracking and recovering print-related costs.

Here are a few of the applications for these Equitrac solutions:

Law firms

Equitrac's solutions allow firms to consolidate and issue reports based on exact usage for specific clients, and ultimately recover costs. Firms can minimize overhead and maximize profits with effective cost recovery, and also track and bill the costs associated with photocopying, faxing, and laser/digital printing.

Advertising and Public Relations agencies

As agencies continue to offer more services, accurate reporting for cost recovery and project allocation has become a necessity. Equitrac offers a single-source solution for accurately recovering costs associated with client billings, such as the time and costs associated with equipment-related services including copying, faxing, and printing. Agencies can issue reports based on the exact usage of resources for clients or departments and export the data into their billing package.

Libraries

Libraries can implement Pay-for-Print solutions to maximize the recovery of all costs related to hard-copy production in a library environment. Equitrac offers simple print vending software, secure card-operated print vending devices, and charge accounts that deliver payment control through pre-defined account parameters. Equitrac's Library Solutions help reduce waste and increase the revenue potential of hard-copy services in retail and library environments.

Equitrac and Toshiba devices

Equitrac integrates perfectly with Toshiba printers, copiers, and other devices in organizations where device management and cost control are critical. Call your Toshiba representative today for more information on how Equitrac and other Toshiba Document Solutions can help *your* organization.
